

Dear Parents:

As you may have heard your students will soon be using a great innovative 3-dimensional educational software called EDUSS. EDUSS was brought into your child's school to help each child on an individual learning basis. With this program the student will not only be able to get and use these great EDUSS features at their school, but anywhere there is internet access. This will allow the student to pace their own work and have the option to work with EDUSS whenever they want.

EDUSS is an educational software program that helps individualize students' learning. It uses the built in diagnostic assessment tool to help pin point problem areas, or learning gaps, that your student may have. It's our goal to not only find these areas, but make sure that the student gets their own personal learning plan to help them succeed in their learning career.

With EDUSS your student can access their individualized learning plans, work on homework, practice exercises, and even learn new concepts. As a parent you can easily access this same information, get immediate feedback, and know that your student is getting their homework done and have the resources available to help them succeed.

As you are able to access EDUSS from your home you do need to make sure that a few things are updated on your computer so that the program can run smoothly. These updates are completely free and take only a few minutes to do if necessary. You will need to make sure that your computer has the most updated versions of:

- Adobe Flash Player – downloaded at <http://get.adobe.com/flashplayer/?promoid=BUIGP>
- Adobe Shockwave Player – downloaded at <http://get.adobe.com/shockwave/>

Once your computer has these updates set you are prepared to have EDUSS come into your home and work with your student. To access EDUSS from home just enter the short URL address in your internet browser and your student will have their log in and password to get them signed into the program and start their work.

Your URL address that is specific to your student's school is: online.eduss.com/wa_amazinggrace

If you have any questions, please feel free to call EDUSS at 1-800-993-3877.

Thank you!
